

Capability Statement

SURGILŪM

...helping *surgeons* see!

Surgilūm is a medical device company dedicated to solving common ophthalmic problems with first-in-class instruments resulting in better patient outcomes, greater OR efficiencies, and higher safety standards.

- Manufactured in the USA
- FDA approved / CE mark
- Woman-Owned Small Business
- Disciplined quality management, ISO 13485 certified
- Same day order fulfillment when received before 12:00 pm
- Award-winning, innovative medical product design

RoboMarker® - Toric IOLs, LRIs, Femtosecond laser alignment and LASIK procedures.

Accurate. Efficient. Safe. Cost Effective.

"I have found the RoboMarker to be easy to use and incredibly efficient and it has streamlined my OR. I would recommend it to anyone doing cataract surgery."

- Rachel Lieberman, MD | Nellis Air Force Base, NV

*This does not constitute an endorsement by the USAF or DoD

ROBO-MARKER®

RMS101 - RoboMarker® Handle

- Self-leveling and easy to use
- Integrated fixation light mimics diagnostic testing
- Gravity based accuracy to +/- 1°
- Single Step axis alignment eliminates secondary marking in OR

ROBOTIP™

TPS101 - Visible spectrum IRT101 - Infrared Platform

- Sterile - no autoclave required
- Single use disposable tips eliminate risk of TASS
- Preformulated tips - 2mm linear marks last up to 2 hours, eliminating frequent returns to pre-op for marking

iLight Speculum™ - SMILE, Corneal Inlays, DSEK/DMEK, ICLs, PK, LASIK, MIGS, Trabs, Pterygium

Unprecedented Surgical Visualization.

"Improved illumination that you cannot see with the microscope."

-Steve Slade, MD, Medical Director, Slade & Baker Vision

"As refractive surgical procedures have gotten more complex with more options, we now have a tool that can make the learning curve much quicker and give us more confidence. With the iLight Speculum, I can now see surgical details I've never seen before. It allows me to approach a variety of new procedures with greater confidence and sharply reduced learning curve."

-Bill Wiley, MD, Medical Director, Clear Choice Laser Eye Center"

iLIGHT™

BEAM2020- iLight

- Slit lamp technology for speculum
- Reveals previously unseen anatomical details
- Eliminates reflected glare for greater surgical visibility
- Reduces retinal phototoxicity, increases patient comfort

SURGILŪM SPECULUM™

SPC101- Surgilum Speculum

- Light weight design for patient comfort
- Advanced Lieberman style autoclavable speculum
- Unique stainless steel allows for iLight attachment
- Curved blades allow variable positioning of iLight
